## ***Important Information:***

This information describes complementary health techniques that may help to facilitate the rejuvenation of one's mental, emotional, and spiritual bodies. It is never our intention to diagnose or treat medical or psychological conditions, impairments, or diseases. Nor is it our intent to encourage people who purchase our products or use our techniques to diagnose or treat psychological or medical conditions, impairments or diseases. As always, in the event of any of the symptoms described herein, seek the advice of a professional health practitioner. Use the information in this manual in alignment with your state, local and municipal laws that govern your particular practice. The authors of the enclosed references have not endorsed these products or techniques.

The information provided in this booklet and during our workshops is for educational purposes only. The purpose of the techniques described is to release energetic blockages, creating a free flow of energy, allowing the body to return to the optimum condition (balance) to heal itself and awaken the divine healing energy within.

The SomaEnergetics Workshops developed by David Hulse, D.D. gives individuals the continuing education they need to apply for certification with the Natural Therapies Certification Board. They do not grant certification to teach. Only NTCB Certified SomaEnergetics Teachers may teach the workshops.

The results achieved with these techniques are, we believe, the result of the high quality Solfeggio Tuning Forks from SomaEnergetics.

*“Unity and diversity are the key-notes of the gene. DNA is like an orchestra able to play the global symphony of the whole body; it is housed in each cell’s nucleus and it is conducted by that messenger RNA, which activates the specific ‘musical’ instruments necessary for the physiology of a specific cell.”*

- *excerpt from Man’s Cosmic Game by Guiliana Conforto*

## SOMAENERGETICS PRINCIPLES

As a student of “A Course In Miracles” in the late 80’s, I was faced with a dichotomy in the idea that we are not a body. I never understood this statement fully until I began to study Quantum Physics which tells us **that everything is energy and matter is not as solid as we perceive it to be**. I believe what is stated is that at the deepest level we are not separate, as a body, as a spirit, as a soul — we are just energy-beings.

Let’s take a look at the idea of ice, water and steam. All 3 are water at different temperatures. Steam, with its molecules far apart, is the most etheric. As the molecules come closer together and the temperature lowers, we get water. And finally, as the temperature drops below 32 degrees and the molecules bind, we get ice. Think of this principle with energy in regard to spirit, soul and body with the body being the most dense form of energy.

Now let’s look at the seven auric fields that energetically make up our physical body. Most of us have been taught that the body has an aura. I come from the premise that the aura has (is) a body!

The furthest field out is the ketheric (crown) which is the least dense (steam) and holds the perfect blueprint for our physical body (ice). As we work

our way to the physical body we go through other fields that store our experiences, beliefs, and emotions, becoming denser along the way. As the blueprint of the ketheric moves down through these other fields, the perfect blueprint – which is never lost, but held in the ketheric field – is changed to something less than perfection – forming an inferior body. As we come to the field closest to the physical body, there is an interface that takes place between the etheric and the physical. This interface between these two fields is what we work with in much of SomaEnergetics.

**Science is now making it increasingly clear that it is possible to therapeutically impact physical and emotional issues by affecting the subtle energy bodies which are in dynamic equilibrium with the physical body.**

According to Dr. Richard Gerber in Vibrational Medicine **the etheric body is a subtle-energy template that guides the development of the**

**physical body. Distortions in the etheric template may be a prediction of illness months prior to it becoming manifest in the physical body.** Working with vibration and frequencies, we can detect distortions in the etheric field and using 5<sup>th</sup> dimensional energy, allow the client the opportunity to let go, re-pattern the distortion, and change the anticipated physical outcome.

## ***Forgotten in Time: The Ancient Solfeggio My Journey of Discovery***

I was first introduced to DNA in 1988 when I was going through a transitional period, during which time, I felt that I had come to the end of many beliefs I had been taught from childhood. I was listening to a tape of a gentleman speaking with an accent, (which, at the time I thought was rather boring), and I didn't understand what he was talking about. Then all of a sudden, as I was ready to turn it off, he said:

***“Quantum physics has found that there is no empty space in the human cell, but it is a teeming, electro-magnetic field of possibility or potential.”***

That's all he said! Whatever frequency was contained in those words, RESONATED a deep knowing inside the CORE of my BEING, and I had a “KNOWING” in me that the “NOTHING” I thought I was looking at was the “EVERYTHING”; much like in Zen...the idea of becoming “as an empty bowl”. Eastern Religions (including the Bible) refer to it as the VOID – The “Nothing” that is “EVERYTHING” – The Womb of Creation. I knew that I was experiencing a re-birth! The person on that tape was Dr. Deepak Chopra.

I had never heard of Deepak Chopra in 1988, as he was just coming on the scene about that time. I credit him for a very important transition in my life, just from the statement he made on that tape. Today, in retrospect, I would call my response to that statement a “cellular awakening”. We know that intelligence is stored within the cells of the body, and when the right resonance comes, information releases, awakening - inherent KNOWLEDGE. That is why so many of us seem to jump from one stimuli to another looking for what will resonate in us.

### ***DNA LEADS TO THE FREQUENCIES***

The work being done today with energy at the cellular level really excites me, since I had been very interested in DNA before it became a

household word. In fact, I think it took me months to learn how to pronounce deoxyribonucleic acid. I was determined to understand this tremendously powerful energetic blueprint for life, as we know it. DNA became a part of the collective consciousness when CNN produced a special on the Genome Project in 2000.

As I pursued my passion for the study of DNA, I attended a workshop by Dr. Robert Gerard from California on DNA Activation. His work focused on using certain sounds and frequencies to activate DNA and I started doing DNA Activation workshops. Through those workshops, an article was given to me that reported how biochemists were using the frequency 528 Hz to repair human DNA, the “blueprint of life”. After I read the article I thought, all I would need to do is go to a piano or some other instrument and play a “C”, and then I would be able to repair DNA.

Well, it wasn't that simple, because I discovered that the regular “C” that we know in the Western culture (which is from the diatonic scale of do, re, mi, fa, so, la, ti, do) was not the 528 Hz frequency “C”, as described in the article. Instead, I discovered that a regular “C” (in a tuning fork) vibrates to a frequency of only 512 Hz, and that the “C” of 528 Hz, used in DNA repair, had been a part of an ancient sequence of frequencies called the *Solfeggio*. Moreover, the difference in the scales existed because of different tuning methods that were utilized in ancient times, vs. those in general use today. In the workshops, we explore how *music molds our character as well as our culture*.

### **The Birth of SomaEnergetics™**

At the turn of the century, my accelerating interest and research into the lost frequencies of the Ancient Solfeggio served as the Spirit-guided catalyst for the idea of bringing these tones back into use. I shared the frequencies with Aryiana, a musician friend who decided that she would like to experiment with these frequencies in the form of meditation music. She was also in touch with Jonathan Goldman (author of *Healing Sounds*) who knew of these frequencies, and was using them in some of his music like “The Lost Chord.” Aryiana requested that he have the tuning forks made for her to research the frequencies. I asked if she could also have a set made for me.

[www.SomaEnergetics.com](http://www.SomaEnergetics.com)

After I received the tuning forks and began talking about them around the country, I began noticing that people were resonating with the information about these powerful frequencies and asking me to use the tuning forks on them. Spurred on by these requests, while I continued to collect additional research, the right people were drawn to me, such as concert pianist and teacher Lois Winter and musician and mathematician, Randy Masters. “Bridging Spirit with Science”, **SomaEnergetics** was birthed. I put much thought into this name, combining the Greek Word **soma**, meaning ‘body’, with **energetics**, to reflect the ‘wholistic’ idea of the body as a vibrant energy field. I firmly believe that these sacred tones actually serve as a “vibrational bridge” to holistic reintegration of the physical, mental, emotional and spiritual aspects of the individual.

After I founded and developed **SomaEnergetics**, it became increasingly apparent that my method of using these tuning forks appeared to be helping individuals optimize their energy, giving them an enhanced sense of wellbeing by facilitating the release, and stimulating the flow, of blocked or stagnant energy. With growing interest, SomaEnergetics™ workshops were developed to teach and empower people to discover and use these long lost frequencies to enhance their lives on all levels.

Currently, SomaEnergetics™ conducts training classes throughout the country and is the exclusive source for the color-coded Solfeggio tuning forks. To date, over 1500 practitioners have completed SomaEnergetics™ workshops and the number continues to grow!

### **The Journey Continues...**

A Chinese saying states; “**May you live in interesting times.**” I think we are living in interesting times, and rather than seeing the glass as ‘half empty,’ I see it as ‘half full.’ Our purpose is to assist others. It’s not to be their ‘Healer,’ but to assist them in knowing who they are and in connecting with their true Self. We provide a non-judgmental atmosphere, a *sacred space*, for the purpose of healing themselves.

The old paradigm dictates that the information should be kept among the professionals. The new paradigm challenges us to share the information and empower the client.

I do believe this is the beginning of a new way in which we can bypass the resistance of the human ego and its powerful belief system. I see healing procedures moving in the direction of using frequencies

therapeutically as we head further into the 21<sup>st</sup> century. This view is corroborated, in detail, in the book *Vibrational Medicine* by Richard Gerber, M.D.:

***“Vibrational healing methods represent new ways of dealing with illness. Practitioners of subtle-energy medicine attempt to correct dysfunction in the human organism by manipulating invisible yet integral levels of human structure and function. Healing at the level of human subtle energy anatomy is predicated upon the new physics understanding that all matter is, in fact, a manifestation of energy. As science and technology evolve to make that which was formerly unseen visible, more scientists and physicians will be forced to change their viewpoint about the extended nature of human beings...”***

## *The Solfeggio Frequencies*

UT - 396 Hz – Liberating Guilt and Fear  
RE - 417 Hz – Undoing Situations and Facilitating Change  
MI - 528 Hz – Transformation and Miracles (DNA Repair)  
FA - 639 Hz – Connecting/Relationships  
SOL -741 Hz – Expression/Solutions  
LA - 852 Hz – Awakening Intuition

These original sound frequencies were used in ancient Gregorian chants, including the great hymn to St. John the Baptist. Church authorities reported that St. John's hymn, along with many other chants, were lost centuries ago. The chants and their special tones were believed to impart tremendous spiritual blessings when sung in harmony during religious Masses. Pure music is very powerful since it discards limiting thought forms associated with words and allows the individual to access insights beyond traditional belief systems.

According to entries from Webster's Dictionary and the original Apocrypha, these original frequencies can be used **to liberate the energy of guilt and fear to be used to undo situations and facilitate change which leads to transformation and miracles allowing you to connect with others, deepen your spiritual relationships, express your truth and awaken your intuition!** Through sound (including the Phase I Energy Vitality Technique) these tones can be used to open energy channels and keep the life force (Chi) flowing freely through the chakra system.

Vibration and sound can be used, like most things, with either positive or negative intention. Oftentimes, one's intention is communicated through the use of language. Various religious texts, including the Bible, discuss the importance of just making Sound - by chanting, singing, drumming, or speaking in tongues. Each expression of sound is a way that people may access deeper levels of consciousness. The Solfeggio Tuning Forks are another powerful way of reaching these levels.

These particular frequencies were rediscovered by Dr. Joseph Puleo in 1974, during a wonderful experience that some would describe as mystical. These frequencies are not something new, but indeed something very ancient. We owe Dr. Puleo our sincere gratitude for rediscovering these frequencies and returning them to humanity.

## ***A SomaEnergetics Sound Therapy Session***

We store life experiences as energy patterns in our energy anatomy. Some of those experiences, especially negative ones, create blockages interrupting the free flow of energy in our lives. The other factor in limiting our energy flow is that many of us live at “survival” level. We access and use only the energy needed to get through the day.

What if we access potential energy? Energy that is stored and available for use in another format. A SomaEnergetics Vibrational Tuning activates the energy in the root energy center and raises it up through the other centers to awaken and balance them allowing the energy to flow freely. When energy flows freely, new choices in our lives are awakened and we have the energy to make the changes we want to make.

If a person is to increase in consciousness, one must increase the ability to allow more energy to flow through their energy anatomy. We can be charged up to our threshold levels and once these threshold levels are met the internal multi-dimensional controls will trigger, and enable, the opening of our floodgates to higher energies. First we must be re-wired to the task by experiencing a SomaEnergetics Vibrational Tuning utilizing the power of the re-discovered Solfeggio Frequencies.

### **A Typical Session...**

Sessions are usually 30 or 60 minutes and are conducted fully clothed on a massage table. Sessions begin with an affirmation and use of the “OM” tuner to take away the stresses of the day. You will then experience the Energy Vitality Technique, which can assist you in opening your energy centers and raising your energy level from survival to optimum vitality.

A 60 minute session will continue with either Solfeggio Body Tuners to address specific areas of concern and/or the Energy Scanning Technique which can assist in finding and clearing out energy blockages from past events that you are ready to release.

Reminder: Since the cornerstone of this technique is based on the intuition and intent of the practitioner and the client, techniques may vary between practitioners. The individual Practitioner assumes all liability for their use of the SomaEnergetics techniques.

The session length and rate is set by the individual practitioner. Many of these individuals are trained in other disciplines and incorporate the SomaEnergetics Techniques within those modalities.

Mt. Pleasant, Michigan
- 

The most common remarks I hear after a SomaEnergetics™ Session is **‘I don’t understand why, but my mind and body just seems to be asking for more.’** I encourage you to give it a try. It is part of the universal language: we are all energy, we are all light, we are all vibration. We are living in some pretty dense times right now and anything that we can use to help heal ourselves and raise our own sense of love and mastery in this world, we should use. I was very pleased with the workshops. **David is very enthusiastic, compassionate and empathetic with each person. He wants each person to come to their own mastery of their own lives.”**

- Margarete Brandenburg, Board Certified Music Therapist
- 

**“This new modality developed by Dr. Hulse is blowing me away. I have been working on people with SomaEnergetics™ Techniques for the last few months and what I am seeing is amazing. I have taken many classes over the years and had many mentors. Dr. Hulse is one of the most impressive of all these teachers. During the workshop, I was lucky enough to be the person that Dr. Hulse demonstrated on and it was a**

profound experience. I see miracles happening all the time in my work with energy medicine. **Nothing has impressed me more than SomaEnergetics™.**"

- David Fish, Radio Talk Show Host

---

"As a Reiki Master, I have added the SomaEnergetics™ Techniques to my sessions and it has added a boost to the sessions and I am thrilled with the effects I am seeing. **Anyone who does any kind of energy healing needs to incorporate this into what they do.** It has an incredible effect by going into the body allowing us to release locked in emotional energies that are locked into our nervous system. It is painless, wonderful, exhilarating, and you feel so renewed after experiencing one of these SomaEnergetics™ sessions. **I was very impressed with David and his drive and determination to share what he has pioneered,** and spent so much time and money developing, with everyone. It gives such extra energy and power to whatever anyone is doing that I feel very confident that this is the one of the ways that we are going to heal the earth: by making this available to people so they can become whole and share this with others. **I am a very different person today than I was prior to experiencing this and I am excited about the future developments.** If you have an opportunity to attend one of these workshops, do yourself a favor and take it – you will be glad you did."

- Kenna Kavensky, Reiki Master

---

David is truly a very knowledgeable and enlightened person. He is very kind: very real. He speaks on a level that you can understand. He is very considerate and personable. I feel he receives information intuitively and he just wants to teach you what has been given to him. Since the workshops, if I had a question or a challenge come up regarding the use of the forks, I have been able to call the office and the staff has always done their best to help me out as a person – not just as someone who has taken the class. I have found Truth at SomaEnergetics™ - but more importantly, I have made some great friends."

## *Exclusive to SomaEnergetics*

### *Color Solfeggio Energy and Body Tuners*

These are the set of frequencies that started it all at the turn of the century! The Solfeggio Energy Tuners are used for the Energy Vitality and Energy Scanning Techniques. This is the set you need to complete phase one live or via home study and you can save even more by purchasing them with the DVD course or at a live course. There is so much going on with these amazing set of frequencies: Numerically they all reduce to a 3, 6 or 9. Within the intervals are golden mean ratios, 111 master ratios and much more! All of this is covered in the Phase 1 Course.

We consider this set of tuning forks "**Energy Tuners**" because they work in the etheric field addressing each chakra or energy center. By working in the etheric field - before the information (or misinformation) is passed to the physical, we are working with "cause" and the work can be considered preventive.

Our other set of exclusive forks - the **Solfeggio Body Tuners** - have weights added and have been lowered so they are dense enough to be felt on the physical body. Working on the physical energy systems - acupressure points, meridians, etc - the information from the etheric has already been passed to the physical and is now an "effect."

These are some of the basic Principles of SomaEnergetics. The amazing part about these 2 sets of tuning forks is that you can work with cause before it becomes effect - or you can work with effect and trace it back to cause. The two sets work together and complement each other beautifully! You can also grab both sets as part of a combo pack and save.

Visit Our YouTube Channel for more on the difference between Energy and Body Tuner Sets.
